Dear John -

Been thinking and come up with some new comments. First concerning M. Garbel - you can now see why it was necessary for me to go back to South Africa, for much Karma was balanced or at least the start of balancing began. Before I was much hated by many there, and now many have accepted me. After to pay homage to my last life I returned to S. Africa to start off my new life at this time. As well as this I am revisiting all the places of past lives to re-initiate those past energies into this life. So far I have re-established with S. Africa - England - France - Mexico and ~~and~~ Egypt - and eventually will do so with Israel, India Italy and Greece. This I feel will happen as I need it to happen.

At any rate, concerning the name of the Publication area - of the Fund. - I do not feel AMPRA is right because it leaves a vague impression as to what it is, also the name American Medical & Psychiatric Research Ass. does not go along with the purpose of the

writings - "Insight" might be a good name
or "Pathway" a "Crown" or "Inner Light Press"
Something along these lines I feel better about

Enclosed is a copy from a book of de Vinci
prints which I showed you while here.

The Eagle and Globe are what I would like
as the Emblem for the Publication Division
for there is great meaning for me in this
drawing.

The Boat is the symbol for the world
floating upon the ocean of the Universe
and the wolf ~~symbol~~ represents man
his animal nature searching for direction
in its life and for understanding the tree
of Knowledge stands holding the Sail full
of wind or Power given man his direction
and inspiration. The wind represents the Holy
Spirit as the True Power of strength and
the Compass points the way to truth and
Soul Freedom or liberation. - The Eagle - represents
John the Baptist - Crowned in glory - Christ and
Soul Conscience atop the world - meaning
conqueror of the Physical Universe and guiding
Men to truth. The Eagle represent the spirit

and the soul of man boat in the physical universe

of Truth and not a man or particular soul
and that is important to keep in mind -

So, I would like to use the Eagle's World
as the Emblem for the Publication -

Also a thought + maybe a real solution
just came to me - You might find a
hospice (center or clinic or hospital - which
and the dying + their families) to link
up with to ~~be~~ be the way to organize for
the IRD. Now you would be dealing with
patients and death as well as could set
up research on dying and cover yourself
easily that way. I feel really good
about this - Also the research of death
is one which has a lot of energy behind
it from a spirit to help men not fear
death.

Well, so much for now - John, one thing
also, when I was leaving Detroit and we
said goodbye I felt as though you were
my Dad saying, "O.K., son you now have
a job to do go out and do it and know I
love you," So know I love you as well ^{with Mother} Light + Service
John
